

Prajwal Kumar K

Bengaluru, India | prajwal.k141205@gmail.com
GitHub: Prajwal-k-tech | LinkedIn | Codeforces: oGhostyyy

Education

Indian Institute of Information Technology Kottayam
B.Tech, Computer Science and Engineering | CGPA: 8.66/10

Aug 2024 – May 2028 (expected)

Experience

Software Development Intern | Edhanta

May 2026 – Jul 2026

- Built sequential course/topic progression with prerequisite unlocks, backlog recovery and lesson-resume paths; added a weekly study-activity view for parents.

Full-Stack Web Developer Intern | CIO Mogul

Dec 2025 – Mar 2026

- Developed magazine websites with reusable components and an editorial administration interface backed by Supabase and PostgreSQL.

Selected Projects

BattleCP | Multiplayer Programming Game

Rust, Axum, Tokio, Next.js

- Built and deployed a Battleship game where Codeforces problem-solving unlocks overheated weapons.
- Implemented WebSocket match updates, server-side game rules, submission verification and reconnect support.
- A Codeforces launch post received 47 upvotes and 18 comments; a Coders Club-supported campus tournament provided playtesting feedback used in later iterations. Live demo | Launch discussion

Algorithma | Interactive DSA Visualizations

React, JavaScript, Framer Motion

- Developed sorting, tree and pathfinding visualizations for Openverse's DSA platform, tailored to IIITK's DSA121 course.
- Connected algorithm steps to code views; co-presented the team project at OOSC 3.0, IIT Kanpur. Repo

Bluff | Imperfect-Information Game Agents

Python, PyTorch, FastAPI, Next.js

- Built a card-game engine and agents combining legal public-information features, learned policies and Bayesian opponent profiles.
- Developed reproducible simulation and component-ablation tooling; added profile persistence across games. Repo

SiliconSpire | Quadratic Assignment Solver

C++, Rust

- Implemented Grey Wolf Optimization with Tabu Search for the Quadratic Assignment Problem in C++ and Rust.
- Across 30 seeds on three small QAPLIB instances, C++ reached known optima in 15/30, 1/30 and 18/30 runs; Rust in 29/30, 18/30 and 30/30. C++ | Rust

Technical Skills

Languages: Rust, C++, Python, TypeScript, JavaScript, SQL

Tools: Axum, Tokio, Next.js, React, PostgreSQL, Supabase, Git, Linux, PyTorch

Spoken languages: English (fluent), German, Hindi, Kannada.

Leadership and Activities

Openverse | Technical Lead; Coders Club | Core Technical Member

IIIT Kottayam

Contribute to open-source development, review workflows, programming contests and problem curation.

Selected Achievements

Codeforces Pupil, peak **1222** (profile max currently 1221); CodeChef peak **1463**.

Hack The Box HOLMES CTF 2025: Team SuKMaDhe, ranked **86th of 7,085 teams**; solved 65/65 challenges.

Best Software Award, IEEE MACE .hack(); '26: Team Hgorithm, for Anchor.
